

HealthARCH

ADVANCING RESOURCES TO CHANGE HEALTHCARE

A Division of the UCF College of Medicine

Patient Centered Medical Home Learning Collaborative

The Florida Department of Health Children's Medical Services (CMS) has partnered with HealthARCH on its statewide initiative to assist eligible pediatric and family medicine practices with Patient Centered Medical Home (PCMH) transformation education.

LAN Program

Eligible provider organizations will receive no-cost support through HealthARCH's Learning Action Network (LAN) program. The LAN is a series of seven webinars, bi-weekly dedicated office hours, and other technical support to start your practice on its medical home transformation journey.

Program Eligibility

If you are a Florida pediatrician or family medicine provider organization you are eligible to participate in the program.

Contact HealthARCH to find out more about the LAN program or visit our program [web page](#).

PCMH LAN PROGRAM

Purpose

The purpose of the LAN is to assist Florida's pediatric and family medicine practices with adopting the PCMH model of care.

Requirements

The requirements for each LAN participant are:

1. Enroll your organization in the program
2. Attend and actively participate in all seven LAN Webinar Sessions
3. Designate a LAN project lead for your organization
4. Participate in all Pre and Post Session Surveys
5. Participate in dedicated bi-weekly office hours as needed
6. Implement a minimum of three PCMH standards

Goal

The goal of the LAN is to prepare practices to become a recognized medical home through the National Committee for Quality Assurance (NCQA).

How to Enroll

Complete the online Readiness Assessment [here](#). Once completed, a HealthARCH representative will contact you to schedule a recruitment call.

Questions

Contact our Program Manager, Farrah Costigan, via [email](#) or call 407-266-4004.
